Operating voltage 10-30V DC.

Suggested loom part number IWHL003.

7" AND 9" METEOR DRIVING LIGHTS WITH DRL

7" Meteor LED Driving Light

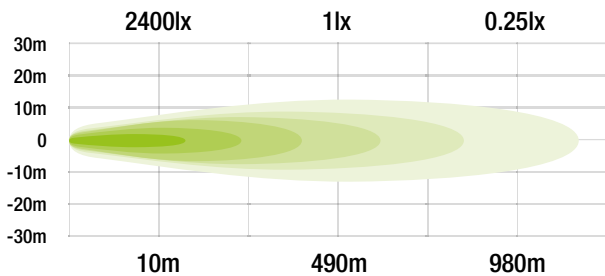

Output: 48W high lux
 Lumens: 4320 raw
 Lux/10m: 2400lx
 Current: 4.3A@12V / 2.1A@24V
 LED Chips: 16 x 3W
 High Output Osram

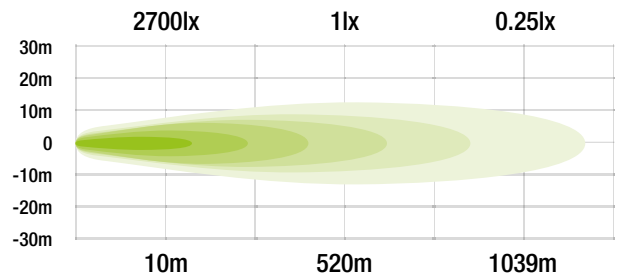

9" Meteor LED Driving Light

Output: 102W high lux
 Lumens: 9180 raw
 Lux/10m: 2700lx
 Current: 8.3A@12V / 4.0A@24V
 LED Chips: 34 x 3W
 High Output Osram

7" METEOR BEAM PATTERN

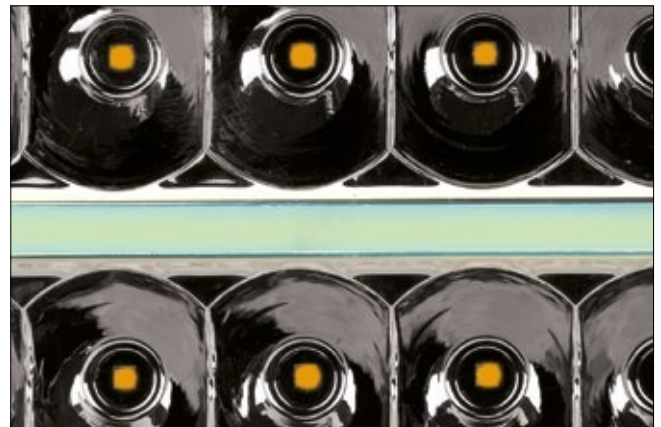

9" METEOR BEAM PATTERN

Daytime Running Light Strip

The integrated daytime running light strip can be configured to automatically switch on when you start your vehicle ignition, increasing your vehicle visibility in any daylight condition.

Functionality

Designed and engineered to produce the closest imitation light to natural daylight (6000K), keeping your road ahead brightly lit.

IP67 and IP69 Rating

Capable of submersion and high pressure water blasts, with a dust proof seal - no need to worry about the river crossings or where you aim a high pressure hose.
